STOCKED BLENDS CATALOG
WHITE LABEL

WELCOME!

This catalog gives you a firsthand look into our Stocked Blends Program offerings – a curated selection of our most popular blends, kept on hand for faster, more convenient ordering.

All products featured in this program are available on a first come, first serve basis. We replenish stock based on demand, and blends with consistently low sales may be discontinued without notice.

To stay informed on current availability, we encourage you to check in with your account manager periodically.

Thank you for exploring our Stocked Blends – we're excited to support your business with quality products, ready when you need them.

CBD WELLNESS OILS

CBD OIL DROPS

Due to their ease of use for those new to CBD, tinctures are often a great place to start. Our full spectrum CBD extract contains cannabinoids, terpenes, proteins, nutrients, and fatty acids derived from the hemp-plant that works synergistically to combat symptoms commonly associated with stress, physical discomfort, restlessness, and skin dryness without providing a psychoactive effect making it the ultimate convenience and dosage control while at home or on the go!

CBD POTENCY AVAILABLE:

Full Spectrum - 1000mg, 1500mg, 2500mg, 3500mg & 5000mg

FLAVORS AVAILABLE:

Natural & Peppermint.

free of
alcohols, parabens,
fragrances, gluten,
silicones & sulfates

Isolate is the opposite of full-spectrum oil. While full spectrum contains as many other compounds as possible, isolate is 99% pure cannabinoid. Most notably, our isolate is entirely **THC-FREE** and solves the problem for THC-sensitive people. Since it contains just a single cannabinoid, there won't be any terpenes or other substances to add taste giving it more consistency in its effects. This blend works to combat symptoms commonly associated with stress, physical discomfort, restlessness, and dryness.

CBD POTENCY AVAILABLE:

Isolate - 250mg, 500mg, 750mg, 1000mg & 1500mg

FLAVORS AVAILABLE:

Natural & Peppermint.

free of
alcohols, parabens,
fragrances, gluten,
silicones & sulfates

CBD + CBG

CBG works by binding to both receptors where it's thought to strengthen the function of anandamide, a neurotransmitter that plays a role in enhancing pleasure and motivation, regulating appetite and sleep, and alleviating the discomfort commonly caused by over worked muscle.

CBD POTENCY AVAILABLE:

Full Spectrum - 1500mg

FLAVORS AVAILABLE:

Peppermint.

free of
alcohols, parabens,
fragrances, gluten,
silicones & sulfates

CBD
SKIN & BODYCARE

CBD AGE DEFYING APPLE STEM CELL

A gentle moisturizing cream, to brighten and resurface skin while promoting and protecting.

CBD POTENCY AVAILABLE:

Full Spectrum - 100mg

Key Ingredients:
